

Charities for Thirsty And You Gave Me Drink

Thirst Project

Thirst Project is a non-profit organization that exists to end the global water crisis and the fact that over 785 million people on the planet do not have access to safe, clean water. They travel across the world to educate individuals about the global water crisis and challenge them to fundraise to build freshwater wells in developing nations and impoverished communities. They guarantee that 100% of all public donations go directly toward their well projects. Over the last decade, Thirst Project has raised more than \$11 million, which has given over 500,000 people in thirteen countries safe, clean water for life.

Water For People

Water For People envisions a world where every person has access to reliable and safe water and sanitation services. Water For People exists to promote the development of high-quality drinking water and sanitation services, accessible to all, and sustained by strong communities, businesses, and governments. They have impacted 1.54 million people with their sanitation services and created 2,436 permanent jobs through their work.

charity: water

charity: water believes that sustainable work is locally led. Along with implementing community-owned water projects, their local partners help facilitate comprehensive water, sanitation, and hygiene (WASH) programming to protect everyone's long-term health. During the past fifteen years, they have funded over 79,000 water projects in 29 countries.
